EDUCATION

Aptech Learning Center

Garden Campus — In Progress

Intermediate (F.Sc / I.C.S)

Completed

TECHNICAL SKILLS

ASP.NET Core MVC

C#

Entity Framework Core

SQL Server

Angular

HTML5

CSS3

Bootstrap

jQuery

Git & GitHub

REST APIs

MailKit (SMTP)

PHP

Laravel

CORE STRENGTH

ASP.NET Core MVC — hands-on mastery through real project development (auth, DB, deployment, email integration)

LANGUAGES

English — Professional

Urdu — Native

PROFILE SUMMARY

Fresh graduate with strong hands-on command of ASP.NET Core MVC, built through end-to-end development of a real-world web application — from frontend UI to backend logic, database integration, authentication, and live deployment. Comfortable across the modern web stack (Angular, HTML/CSS, Bootstrap, jQuery) with a solid grasp of Git-based workflows. Looking for an entry-level opportunity to contribute as a .NET Developer.

PROJECT EXPERIENCE

Star Securities (Star Project)

Security Services Company Web Application — ASP.NET Core MVC

- Built the complete frontend UI and backend architecture of a security services company platform, including admin registration, contact/hiring forms, and appointment booking.
- Implemented session-based authentication using a custom SessionAuthFilter to secure all routes except public Home/Login pages.
- Integrated automated email confirmations for contact and hiring form submissions using MailKit with Gmail SMTP.
- Connected and managed a remote MSSQL database, resolving live data persistence and configuration issues.
- Deployed the full application to a live hosting environment (somee.com), handling FTP deployment and remote DB connectivity.

ADDITIONAL SKILLS EXPOSURE

Frontend

Angular (basics), HTML, CSS, Bootstrap, jQuery

Backend

ASP.NET Core MVC (Mastered), C#, Entity Framework Core, PHP, Laravel

Database

Microsoft SQL Server (local & remote/MSSQL hosting)

Tools

Git, GitHub, Visual Studio, FTP Deployment

STRENGTHS

- Fast learner — able to independently research, debug, and resolve complex real-world issues (auth, DB, email/SMTP integration).
- Full-cycle project builder: design → development → deployment.
- Strong problem-solving mindset with attention to detail.
